SECTION 4 — FLAGS & EXCEPTIONS

No flags or exceptions. All queues are clear, no pending deposits or redemptions, zero SLA breaches, and no unclaimed positions. Two new redemption requests were logged in the past 24 hours, with update events confirmed on both Ethereum (12:02 UTC) and Monad (14:27 UTC). Both appear to be status updates carrying zero dollar value, consistent with routine request lifecycle processing. No operator action required.
